

A line drawing of a right hand. A device, labeled 48, is shown on the index finger. The device consists of a band 48a that wraps around the finger. A strap 48b extends from the band. A loop 48c is formed by the strap, and a small component 48d is attached to the band. The device is positioned on the proximal phalanx of the index finger. A label 41b points to the palm area of the hand.
